

Base/Field Technician

ADS Services - Midland, TX

We are looking for an organized, detailed-oriented person, who can perform maintenance and assemble surface pressure equipment (including bearing assemblies, refurbishing and repacking), valves, and other equipment for surface rental under minimal supervision as well as perform rig up, rig down, and technician runs to support the account managers in the field. This position is unique in that the work load will be ~ 75% in the base and ~ 25% in the field.

Experience the challenges, rewards and opportunity of working for one of the most innovative and fastest growing companies in the energy industry!

Summary:

To perform various procedures related to equipment, to assist in inventory control, and to work with other shop team members in order to timely support the field team. As well as, to provide installation, repairs, and removal of Managed Pressure Devices (MPD) and other rental equipment during the peak customer demands to assist the account managers.

Roles & Responsibilities within the Base:

- Assist in preparing and loading jobs in addition to cleaning, inspecting, and refurbishing equipment.
- Perform work in accordance to standard operating procedures and ensure compliance to industry standards.
- Paint equipment in accordance to specifications
- Pick up/deliver parts as assigned by manager
- Operate crane and/or forklift to load and unload jobs.
- Clean, service, and refurbish tools as required by supervisor.
- Assembly and disassembly of tools relative to services provided per location.
- Maintain clean work environment
- Know and understand Quality Policy and comply with all requirements of the Quality Systems Manual, Operating and Technical Procedures and Workplace Instructions.
- Must understand and comply with all safety rules and company policies.
- Work assignments carried out to the highest quality level.
- Perform various other duties / activities as assigned by supervisor within the physical constraints of job

Roles & Responsibilities while supporting Field:

- Perform installation services for Rotating Head Devices (RHD) and service tools in the field
- Knowledge of product lines, product applications and wellsite equipment
- Provide excellent customer service to our clients by troubleshooting and quickly resolving issues
- Provide sound technical advice and products recommendations based on customers' operational requirements
- Maintain the highest level of safety at all times

Qualifications Requirements:

- High School diploma or equivalent
- Able to work closely with fellow employees
- Valid Driver's License and clean driving record
- Work flexible schedule, long and/or irregular hours
- Use and read basic measuring tools, hand and power tools
- Some oil field knowledge and welding experience a plus
- Able to lift minimum 50 pounds and long-period of time standing
- Occasional travel to rig location
