

Shop Technician

ADS Services - Midland, TX

We are looking for an organized, detailed-oriented person, who can perform maintenance and assemble surface pressure equipment (including bearing assemblies, refurbishing and repacking), valves, and other equipment for surface rental under minimal supervision.

Summary:

To perform various procedures related to equipment, to assist in inventory control, and to work with other shop team members in order to timely support the field team.

Roles & Responsibilities:

- Assist in preparing and loading jobs in addition to cleaning, inspecting, and refurbishing equipment.
- Perform work in accordance to standard operating procedures and ensure compliance to industry standards.
- Paint equipment in accordance to specifications
- Pick up/deliver parts as assigned by manager
- Operate crane and/or forklift to load and unload jobs.
- Clean, service, and refurbish tools as required by supervisor.
- Assembly and disassembly of tools relative to services provided per location.
- Maintain clean work environment
- Know and understand Quality Policy and comply with all requirements of the Quality Systems Manual, Operating and Technical Procedures and Workplace Instructions.
- Must understand and comply with all safety rules and company policies.
- Work assignments carried out to the highest quality level.
- Perform various other duties / activities as assigned by supervisor within the physical constraints of job

Qualifications Requirements:

- High School diploma or equivalent
- Able to work closely with fellow employees
- Valid Driver's License and clean driving record
- Work flexible schedule, long and/or irregular hours
- Use and read basic measuring tools, hand and power tools
- Some oil field knowledge and welding experience a plus
- Able to lift minimum 50 pounds and long-period of time standing
- Occasional travel to rig location
